

Jordans JERSEY

DISTINCTLY Jordans

Wherever your business markets, however diverse your financial interests, whatever your particular requirements, Jordans have the solution.

Since 1863 Jordans have been providing individuals, families and corporate clients with the best international business advice. Today, we are the UK's market leaders in the creation and administration of UK and overseas companies and we have a reputation for excellence in international trust and corporate services.

We have extensive experience in using offshore centres to support a variety of commercial transactions and individuals' wealth maintenance. Our network of offices around the world also enables you to explore the potential advantages of different legislative structures.

Whether you want to establish a trust, incorporate a company in Jersey, UK or other offshore leading territories, obtain reliable, ongoing company secretarial or director services – Jordans can provide the solution, a solution that is built on a commitment to our clients.

Uniquely JERSEY

In 1994, Jordans established a presence in Jersey as the premier office in our offshore network. We provide a full range of trust and corporate services for individuals, families and corporate clients, with a commitment to quality, efficiency and confidentiality.

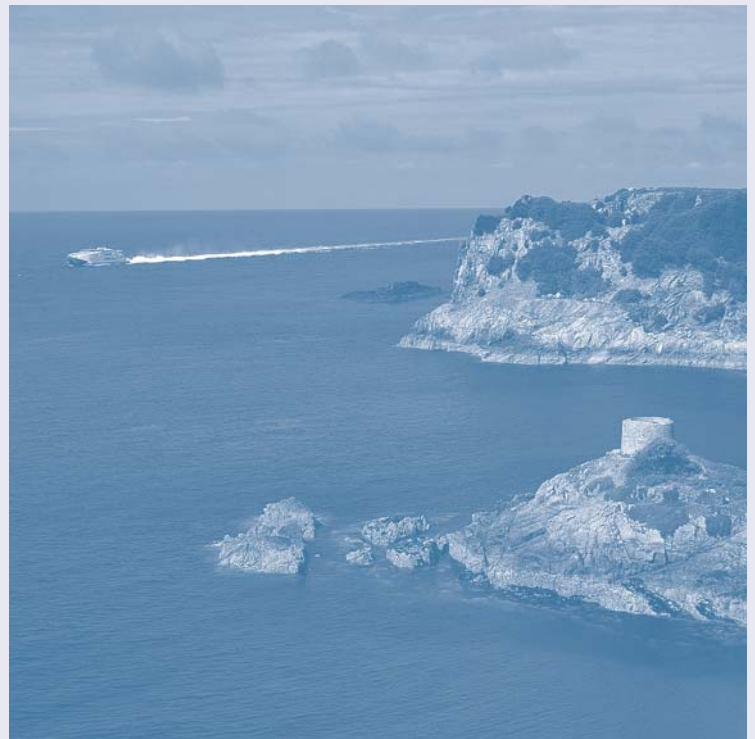

As part of the Jordans international organisation we have access to specialist advice and services through our technologically advanced communications network. This gives us the most up-to-date information on legislative changes that could affect a trust or corporate structure.

The island of Jersey offers a secure, well-regulated financial environment that has been an integral part of international financial services for several decades, providing clients with the benefits of legal and financial independence. Over the years, Jersey's stable business environment has made it a jurisdiction of choice in financial and tax planning.

As an offshore centre in a global economy, Jersey plays a vital role in supporting a variety of trust and corporate cross border transactions, as well as facilitating the wealth preservation strategies of families and individuals of high net worth.

What sets us apart is our client-focused approach. We pride ourselves on our friendly service and commitment to understanding your business objectives.

Jordans (C.I.) Limited is regulated by the Jersey Financial Services Commission in the conduct of trust company business in accordance with the Financial Services (Jersey) Law 1998.

Trust SERVICES

The Anglo-Saxon concept of a trust has been widely used for hundreds of years. In more recent times, traditional trust principles developed in English law have provided the foundation for Jersey trust legislation.

A Jersey trust provides a well-regulated tax free environment for trust assets. In addition, since it does not have to be registered and the details are not available for examination by any authority, confidentiality is assured.

Jordan Trustees (Jersey) Limited and Jordan Trustees (C.I.) Limited act as corporate trustees, offering comprehensive trustee services including discretionary trusts, fixed interest trusts, accumulation and maintenance trusts and revocable trusts to individuals, families, and corporate clients.

We can advise and create trusts for a number of purposes including:

- Tax planning
- Preservation of family wealth
- Estate planning
- Joint ventures
- Employee benefits
- Charitable trusts

Jordans has a reputation for excellence, providing first class friendly, professional trustee services.

Corporate SERVICES

Jordans has extensive experience in the establishment and management of offshore and UK companies. We provide directors, officers, company secretarial and accounting services for comprehensive and efficient management to individuals, families and corporate clients.

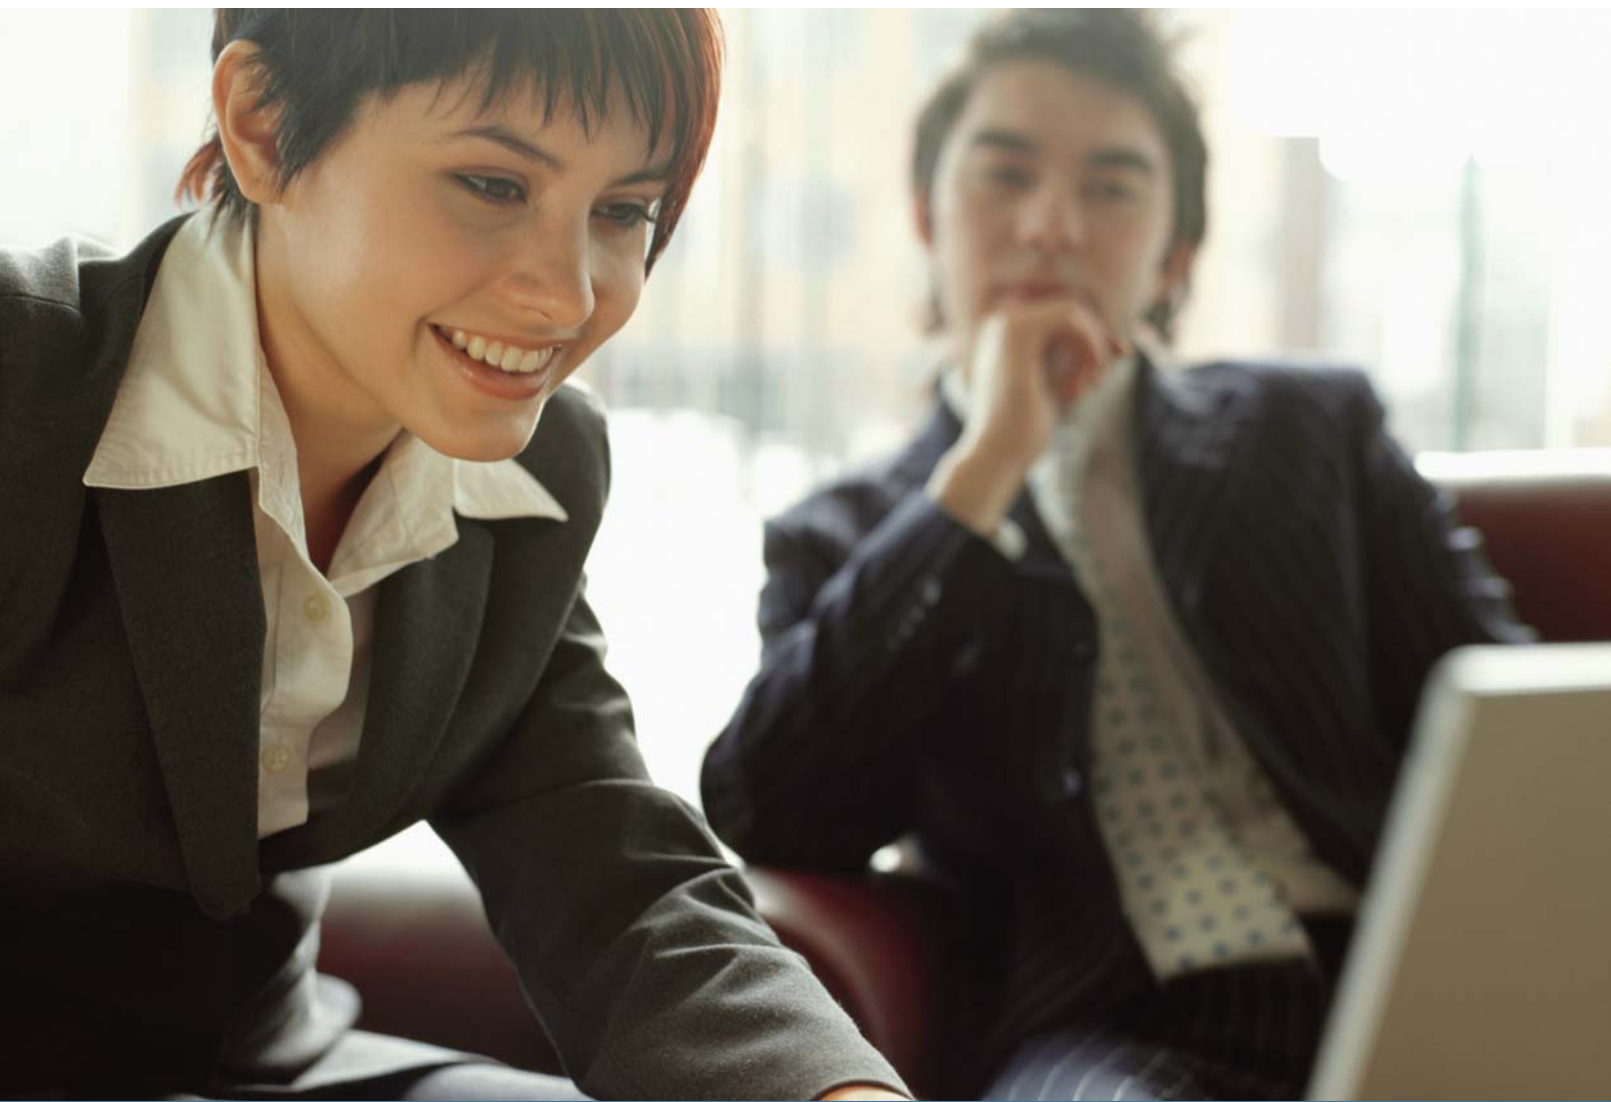

Many of the advantages of offshore incorporation can be lost if a company's business affairs are not managed and controlled effectively and in the appropriate jurisdiction. Offshore companies are used to hold a wide variety of assets and to conduct international trading and licensing activities.

The companies we administer include:

- Property holding or development
- Investment holding
- Trading activity
- Management of royalties
- Family owned companies
- Intellectual property
- Special purpose structures
- Consultancy
- Employment

In addition to incorporation in Jersey and the UK, we can form companies in all the leading offshore territories, including Anguilla, the Bahamas, Belize, the British Virgin Islands*, Cayman Islands, Cyprus*, Gibraltar*, Guernsey, Hong Kong, Ireland, Liberia, Malta, Mauritius, Netherlands Antilles, Nevis, Panama, Singapore, St Vincent, Turks & Caicos Islands and the USA.

Location

Jersey, at 45 square miles (117 square km) in size, is the largest of the British Channel Islands. The island is located 85 miles (135km) south of mainland Britain and 14 miles (22km) from the coast of France. There are many daily flights to London Gatwick and other UK and European destinations.

With a population of approximately 90,000, Jersey enjoys a reputation as an international premier financial centre with political, social and economic stability. Its status as a Crown Dependency gives the island constitutional rights of self-government and judicial independence.

Jersey's main language is English, but the island's cosmopolitan nature means that most European languages are spoken and used for business.

Communication links are excellent, with high standards of international telecommunications, information technology, postal and courier services. All major digital telephony, including internet networks and services, can be accessed securely on the island.
